I recently graduated with a Bachelor of Information Technology, a milestone in achieving my dream of becoming a professional developer. Whilst in the past 15 years I worked in retail roles as my main source of income, I also carried out responsibilities in IT and freelanced part-time as a web developer. My last position at Firm-n-Fold as manager for 6 years also included responsibilities in managing the company's eCommerce website, products, local network, computers, and ICT equipment. I am looking for full-time work, open to hybrid & remote roles.
